SENS ANNOUNCEMENTS

SELECTED RELEASES

SAPPI LIMITED – First quarter results

The group generated EBITDA excluding special items of US\$240 million, a substantial improvement over the prior quarter and more than double the equivalent quarter in 2021. Robust market demand in all product segments combined with the implementation of higher sales prices to offset rising costs and a focus on product and customer mix optimisation facilitated the growth. An additional sales week in the quarter augmented sales and boosted EBITDA by approximately US\$25 million. Pulp sales volumes increased by 48% compared to the prior quarter as we secured more shipping capacity for our South African exports. The hardwood dissolving pulp (DP) market price decreased to US\$905 per ton during the quarter on the back of weakening viscose staple fibre (VSF) demand and pricing in China. However, demand for Sappi Verve remained strong and our mills were fully sold with sales volumes of 334,000 tons in the quarter aligned to production. VSF prices rebounded towards the end of the quarter which stabilised DP pricing. The ongoing logistical challenges and adverse weather conditions in December at the Durban Port prevented any reduction of the 100,000 ton sales backlog from the fourth quarter of FY2021. Markets for packaging and speciality papers continued to be robust across all regions with sales volumes up 26% on a year ago. Earnings per share excluding special items for the quarter was 20 US cents, which was a substantial improvement on the 11 US cents in the prior quarter and indicative of the excellent recovery of profitability. Special items increased earnings by US\$8 million primarily due to a US\$26 million settlement of a US pension liability offset by a loss on plantation price fair value adjustments of US\$15 million. Net cash utilised for the quarter was US\$11 million, compared to zero in the equivalent quarter of last year. Net debt of US\$1,917 million was US\$139 million less than at the end of the equivalent quarter of last year.
