

SPW CONSERVATIVE BALANCED MODEL PORTFOLIO
31 DECEMBER 2021

Conservative
Cautious
Moderate
Moderate Aggressive
Aggressive

PORTFOLIO DESCRIPTION AND INVESTMENT OBJECTIVE

This multi-asset class portfolio invests in equities, bonds, money market instruments and property, both locally and offshore. This portfolio will aim for long-term capital growth through active stock picking and asset allocation.

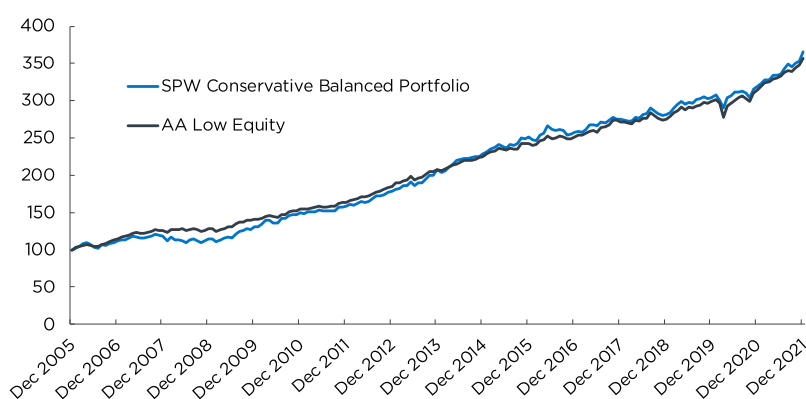

This portfolio may have a maximum effective equity exposure (including international equity) of up to 40% and a maximum effective property exposure (including international property) of up to 25% of the market value of the portfolio. Total allowable offshore exposure is 30%. Due to the lower exposure to equities in the portfolio, lower levels of volatility can be expected.

YOUR PERSONAL BALANCED PORTFOLIO

SPW Conservative Balanced model portfolio is constructed by the Investment Team based on an intensive and rigorous investment process. The model portfolio acts as a guide to your portfolio manager in customising your personal portfolio to suite your individual requirements. It is important to note that the performance on this fact sheet is based on the model portfolio and the performance of your portfolio may vary depending on the level of deviation from the model portfolio and the fees charged.

WHY SELECT A PERSONAL PORTFOLIO

A personal portfolio is suitable to more discerning investors who might have unique factors to consider during the investment process. With a personal portfolio, your investment can be tailored to your unique requirements. You will have the benefit of more direct access to your portfolio manager. Your portfolio will not be affected by the cash investment and withdrawals of other investors.

PORTFOLIO MANAGER'S COMMENTS

December saw a continuation of the general equity market strength shown throughout most of 2021 both in SA and internationally, quickly shrugging off worries around the Omicron variant of Covid-19. SA equity prices – as measured by the FTSE/JSE All Share Index – increased by 4.8% for the month on a total return basis. Globally, the picture was similar, with developed market share prices – as measured by the MSCI World Index – rising 4.3% in US dollar terms, while emerging markets – as measured by the MSCI Emerging Markets Index – gained 1.9% in the month.

2021 was another remarkable year for markets, as ultra-accommodative monetary policy lifted both economic activity and market sentiment. The SA market delivered an exceptional total return of 29.2% over the year. Developed markets rose 22.3% in US dollar terms, but emerging markets declined 2.2%. The US was the key driver of global markets, with the S&P500 up 29% for the year and an annualised 26% per year over the past three years.

The SA financials sector gained 8.3% in December, followed by resources (+5.4%), while industrials were up 2.9% in the month. Banks were up 10%. Losing sectors were pharmaceuticals (-5.1%) and food producers (-2.9%). For the full year, resources returned 31.9%, financials 29% and industrials 25%.

The All Bond Index (ALBI) returned 2.7% in December and 8.4% for the year. Cash returned 0.3% for the month and 3.8% for the year. SA listed property had a strong December, up 7.9% and recovered from 2020's disaster by posting a total return of 36.9% for the year.

The portfolio delivered a return of 14.41% for the 12 months to the end of December, outperforming the peer group average by 0.88%. The offshore stock selection was a drag on performance. The offshore equity style of 'quality at a reasonable price' resulted in the portfolio lagging, given its underweight to the US market and its zero weight in cyclical counters that performed well following the collapse in global equity prices during the second quarter of 2020. Local stock selection contributed positively to the relative performance over this period.

The one-year performance has put the portfolio in the 37th percentile for the period. The portfolio managed to stay in the top 35% versus peers over 10 years.

We added 0.7% to Bidvest on value considerations. The portfolio now has an equity exposure of 36.6% and property exposure of 7.0%. It carries a very low cash balance of 6.2% and an exposure to local fixed interest assets of 35%. We have elected to hold no offshore bonds in the portfolio, but hold exposure to alternative assets aiming to produce cash-

MANDATORY DISCLOSURE

Participation in the Sanlam Private Wealth's Conservative Balanced Model Portfolio is a medium to long-term investment. The value of this portfolio is subject to fluctuation and past performance is not necessarily a guide to its future performance. Calculations are based on a lump sum investment with gross income reinvested on the ex-dividend date. All performance figures are net of fees and costs. Actual investment performance will differ based on the fees applicable, the actual investment date and the date of reinvestment of income. A schedule of fees and maximum commissions is available from the manager. Sanlam Private Wealth (Pty) Ltd, registration number 2000/023234/07, is a member of the Johannesburg Stock Exchange, a licensed Financial Services Provider (FSP 37473) and a Registered Credit Provider (NCRCP1867).
